

Bubble extruder for PVC twist film

By ABTECH S.R.L. - ITALY

	Reference	E17
1.01	Brand	COMET
1.02	Model	S680
1.03	Type	Single-layer reverse-blown bubble extrusion line for the production of rigid and semi-rigid PVC twist film (from resin). The film can also be used for lamination with paper.
1.04	Year	2003
1.05	Film thickness	Range: 20 - 70 micron
1.06	Max useful width	1.400 mm after trims cutting
1.07	Output max	130 kg/h after trims cutting
1.08	Extruder	Screw diameter: 120 mm (25 D)
1.09	Extrusion die	Extrusion circular die with air ring cooling system
1.10	Thickness measurer	Yes
1.11	Type of rewinder	Automatic, double, back to back, rotating Razor blades for longitudinal cutting (possibility of winding up to 4 reels per side)
1.12	Max diam. on rewinder	Max 800 mm
1.13	Height	12 m (roughly)
1.14	More information	Machine not working, complete, immediately available
